EDUCATION

Swedish House of Finance, Stockholm School of Economics , Stockholm	2022 – 2027 (<i>Expected</i>)
Ph.D. Finance Committee: Alexander Ljungqvist (chair) and Per Strömberg	
Tehran Institute for Advanced Studies , Tehran	2019 – 2021
M.Sc. Economics	
University of Tehran , Tehran	2014 – 2019
B.Sc. Civil Engineering	

RESEARCH FIELDS

Primary: Entrepreneurial Finance, Venture Capital, Innovation
Secondary: Corporate Finance, Industrial Organization, Climate Finance

JOB MARKET PAPER

Two Faces of VC Networks: Performance Premium and Entry Deterrence

Venture capital firms co-invest through syndication networks, and a VC's position in that network is widely associated with stronger startup outcomes. This paper studies the two sides of that relationship. On one side, well-connected VCs enjoy a performance premium through better deal access and information sharing. On the other, the same network structure raises barriers that deter entry by new and peripheral investors, with consequences for competition in the market for startup capital. I assess the net efficiency implications for startup financing and the allocation of capital to entrepreneurial firms.

WORKING PAPERS

Resource Reallocation with Carbon Emission Policies 2026
I develop a structural model of green vs. brown capital to study how carbon policies reshape productivity, emissions, and capital allocation in Swedish manufacturing.
Presented at: [LSE Environment Camp 2025](#). *Award:* Tomas Björk Best Paper Prize 2024.

Connected Stocks via Business Groups *with M. Heidari and M. Mohseni*
Using daily ownership data from Iran, we show that common ownership increases stock-return comovement, with business-group affiliation playing the dominant role in driving the effect.

HONORS, AWARDS & FELLOWSHIPS

Tomas Björk Best Paper Prize (20,000 SEK), Swedish House of Finance	2024
---	------

CONFERENCES, WORKSHOPS & TRAINING

Summer PhD Workshop on Entrepreneurial Finance , Nova SBE, Lisbon	2026
NBER Entrepreneurial Research Boot Camp , National Bureau of Economic Research	2025
Summer School on Structural Estimation in Corporate Finance , Wharton, U. of Pennsylvania	2025
LSE Environment Camp	2025

TEACHING EXPERIENCE

Stockholm School of Economics Climate, Financial Markets and the Economy (Master); Household Finances and Wealth Management (Master); Macroeconomics and Finance (Master); Econometrics for Finance (Undergraduate).	2023 – Present
Tehran Institute for Advanced Studies Financial Economics; Advanced Corporate Finance; Econometrics I (Master).	2020 – 2021

COMPUTER SKILLS

Programming: Python, R, Matlab, Julia, Fortran

Statistical Software: Stata

Structural Methods: Maximum Simulated Likelihood, Simulated Method of Moments

Tools: L^AT_EX, Git, AWS
